

During this crisis with ever-changing accommodation availability, I wanted to let you know that the Residence Inn by Marriott Detroit-Novi is open. We realize that imperative medical initiatives may require our services for traveling nurses and other personnel. We are prepared to assist with lodging needs.

The Residence Inn by Marriott-Novi is located in close proximity to numerous medical facilities including:

- Trinity Health
- Detroit Medical Center Huron Valley – Sinai Hospital
- Ascension Providence Hospital
- Henry Ford Health System
- Beaumont Hospital

We recognize how stressful traveling is during this time. Although, like many in the hospitality business we have had to temporarily restrict some of our unique Residence Inn amenities such as our full breakfast buffet, which is now a generous grab and go. Provide your valued travelers the opportunity to stay in a spacious suite. We want to be their home away from home!

Book at Marriott.com, corporate rate code **TRN**, for our discounted rate or call us for more information.
